- Comprehensive Coaching: Business, Other Persons and Self/Personal
- Bespoke Coaching: High Performance Leadership Teams
- Bespoke Coaching: Business Excellence
- Bespoke Coaching: Exemplary Leadership

COACHING PASSION

I believe that every person has the innate ability to excel in achieving their dreams. Combining deep manufacturing experience with premium quality coaching, I offer comprehensive and bespoke solutions for business leaders and executives that focus on measurable business performance improvement. Core to my coaching is creating a thought-provoking and thinking environment where leaders and executives develop their own capability to identify problems and opportunities, seek unique solutions and craft sustainable futures for themselves and their businesses.

WORK EXPERIENCE

I am a Chemical Engineer with 30+ years' experience in petrochemical manufacturing. Working for SASTECH (SASOL Technology) and SAPREF (Shell & BP SA Refinery) I gained experience in various technical, managerial, leadership and executive roles. My passion is Production/Manufacturing with competencies in Business Leadership, Business Excellence, Operations Management, Asset Management, HSSEQ Management, Risk Management, Budget Management, Labour Relations, Business Management Systems and Processes, and Competence Development. My leadership experience spans 20+ years as Reliability Manager, Plant Manager, HSSE Manager, Production Manager and deputising as Managing Director.

COACHING EXPERIENCE

Over the 20+ years as business leader, I have instinctively applied the principles of coaching to develop future leaders, guide individuals and teams to improve performance, realised opportunities for the business, and implemented sustainable business systems and processes. As a Business Leadership and Executive Coach, I have successfully completed the rigorous training and evaluation program of SA Business Coaches, including more than 50 coach/coachee practice sessions.
