COACHING PASSION

Be True to yourself – This is my life motto. Not always easy – but crucial. To be the person I want to be – even if it means being different to the crowd. Coaching became a passion over the years – I realised there is something amazing that happens if you can assist someone in finding themselves and making a positive difference in their life – Seeing growth through support, encouragement and transformation. Running my own Business Consultancy since 2004 taught me about passion, hard work and dreams. In 2016 I joined forces with Company Partners to change the lives of Entrepreneurs throughout South Africa and beyond. Building dreams through passion, focus and determination – that's what I'm all about!

WORK EXPERIENCE

I have over 20 years business experience in Company Secretarial Compliance and Running my own business. Im currently the Managing Director at Company Partners and been involved in business development and corporate compliance, Team building and successfully growing the company from 12 to over 50 staff in 4 years. Working with local and international companies and structures offered the opportunity to expand our Departments, control and Management.

COACHING EXPERIENCE

Practical business coaching and skills gained in years of Business – Focusing on register, empower and grow for entrepreneurs, business owners, managers and executives. Daily Interactive Team and Culture building focusing on improvement and Team vision, turning problems into solutions. Quick and effective assessments with practical approach leading to growth. As workshop presenter and Company leader daily practical involvement provided me with years of experience as business coach, now incorporating skills development and tools with compliance and guidance. Transforming teams, businessowners and directors into effective decision makers and businesses.
